📍 Gurgaon, India

👤 Profile

Senior Full Stack Engineer with **13+ years of experience** in designing, developing, and delivering scalable enterprise SaaS applications, web platforms, mobile applications, and analytics solutions. Strong expertise in **Frontend Engineering** using **React.js, Next.js, React Native, JavaScript, TypeScript, HTML5, and CSS3**, complemented by hands-on experience in **Backend Development** with **Node.js, NestJS, REST APIs, GraphQL, and SQL/NoSQL databases**.

Experienced in building responsive, high-performance, and reusable component-based applications, implementing modern frontend architecture, API integrations, state management, and performance optimization to deliver exceptional user experiences. Proficient in developing scalable backend services, authentication & authorization, business logic, database integration, and enterprise-grade APIs while collaborating with Product, Design, QA, and DevOps teams throughout the Software Development Life Cycle (SDLC).

Hands-on experience with **Generative AI (GenAI), Large Language Models (LLMs), Prompt Engineering, and OpenAI technologies**, contributing to AI-powered features including call transcription, intelligent summaries, sentiment analysis, and conversational insights. Proven track record of leading technical initiatives, mentoring engineering teams, and delivering high-quality software using Agile methodologies with a strong focus on performance, scalability, code quality, and business value.

📁 Work Experience

Senior Principal Software Engineer

04/2022 – 06/2026 | Gurgaon, India

- Led end-to-end SDLC for enterprise SaaS applications, delivering scalable full-stack solutions from requirement analysis and solution design to development, deployment, and production support.
- Architected and developed scalable full-stack applications using **React.js, Next.js, React Native, Node.js, JavaScript, TypeScript, REST APIs, GraphQL, SQL/NoSQL, and AWS**.
- Designed reusable frontend architecture, scalable backend services, REST/GraphQL APIs, and enterprise application integrations to support high-volume business applications.
- Delivered enterprise platforms including **SingleInterface V3, NOVA, Connect Web, and Connect App**, enhancing application scalability, performance, and customer experience.
- Developed and enhanced key business modules including **Call Analytics, AI Call Summary, CRM Integration, Review Insights, Business Intelligence Dashboards, Customer Journey Analytics, and RBAC**.
- Provided technical leadership through solution design, architecture reviews, code reviews, engineering best practices, and mentoring development teams.
- Improved application performance by **30%** through frontend optimization and scalable architecture.
- Collaborated with Product, Engineering, QA, DevOps, and Design teams to translate business requirements into scalable technical solutions and deliver high-quality software.
- Optimized application performance, scalability, and production stability through continuous performance tuning, code optimization, and modern engineering practices.

- Worked in Agile/Scrum environments, contributing to sprint planning, technical estimation, backlog refinement, release planning, and successful product delivery.

Frontend Team Lead

04/2017 – 03/2022 | Gurgaon, India

- Led and mentored a team of **7 Frontend Engineers**, driving technical excellence through code reviews, Agile practices, engineering standards, and technical mentoring.
- Led a team of **7 Frontend Engineers** and delivered **3+ enterprise applications**.
- Defined and implemented scalable frontend architecture, reusable component libraries, and modern UI frameworks using **React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, and React Native**.
- Led the end-to-end development of Starify, defining frontend architecture, reusable component libraries, and scalable UI frameworks using React.js and Next.js.
- Built high-performance, responsive, and scalable web applications with **React.js, Next.js**, integrating **REST APIs** and collaborating with backend teams to deliver seamless user experiences.
- Optimized frontend performance through component reusability, code optimization, lazy loading, and modern engineering practices to improve scalability and application performance.
- Collaborated with Product, UX, QA, DevOps, and Engineering teams to translate business requirements into scalable frontend solutions and deliver high-quality products.
- Contributed to full-stack application delivery using **Node.js** and **NestJS**, supporting API integration, backend collaboration, and end-to-end feature development.

Senior Frontend Developer

04/2015 – 03/2017 | Gurgaon, India

- Developed scalable, responsive, and high-performance web applications using **React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, and React Native**.
- Designed reusable UI components, modular frontend architecture, and integrated **REST APIs** to deliver scalable enterprise applications.
- Reduced page load time by **25%** through frontend performance optimization.
- Optimized application performance through code optimization, lazy loading, and modern frontend best practices while collaborating with Product, UX, QA, and DevOps teams.
- Mentored junior developers through code reviews, technical guidance, and Agile development practices to ensure high-quality software delivery.

UI Developer

04/2014 – 04/2015 | Noida, India

Parangat Technologies

- Developed responsive web pages using HTML, CSS, JavaScript, and jQuery.
- Converted PSD/UI designs into pixel-perfect web interfaces.

Frontend Developer

10/2013 – 09/2014 | Noida, India

Rosensoft Technologies

- Built reusable frontend components using JavaScript and jQuery.
- Developed interactive dashboards and user-facing modules.

Frontend Developer

02/2013 – 10/2013 | Noida, India

Magic Software Inc

- Developed scalable frontend modules for web applications.
- Implemented JavaScript-based interactive functionalities.

Core Competencies

– Full Stack Development | Frontend Architecture | React.js & Next.js Development | React Native Development | Node.js Backend Development | REST API & GraphQL Integration | Enterprise SaaS Application Development | Solution Architecture | Software Development Life Cycle (SDLC) | Agile & Scrum | Technical Leadership | Application Performance Optimization | Code Review & Technical Mentoring | Cloud-Based Application Development (AWS) | Cross-functional Collaboration

Technical Skills

Frontend : React.js, Next.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3

Database: SQL, MySQL, PostgreSQL, MongoDB, NoSQL

Tools: Git, GitHub, Jira, Confluence, Postman, VS Code

AI: OpenAI, Generative AI (GenAI), Prompt Engineering

Backend: Node.js, NestJS, REST APIs, GraphQL

Cloud: AWS

Methodologies: Agile, Scrum, SDLC

Certificates

- Generative AI - 2025
- System Design - 2025
- Graphics and Web Designing (GWD) - 2012 to 2013

Education

Master of Computer Applications (M.C.A.) 2016 - 2018 | Delhi, India
Annamalai University

Bachelor of Science in Information Technology (B.Sc IT) 2012 - 2015 | Delhi, India
Annamalai University
